A white, cylindrical profile with a black interior lining and a black end cap.

SHADOW SURFACE

A black, rectangular profile with a white interior lining and a black end cap.

SLIM SURFACE

A white, rectangular profile with a recessed channel containing several yellow LED chips.

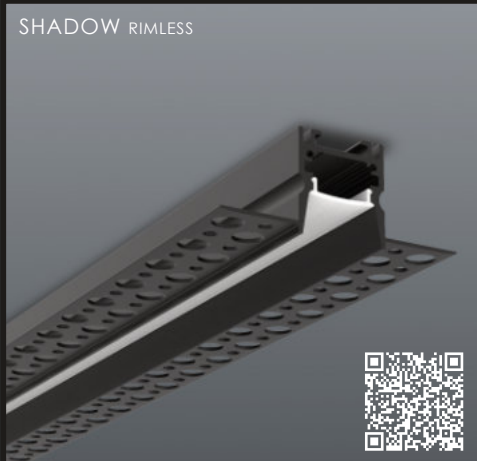

SLIM RECESSED

A white, rectangular profile with a recessed channel containing several yellow LED chips.

SHADOW RIMLESS

A black, rectangular profile with a white interior lining and a perforated bottom surface.

SHADOW RECESSED

A black, rectangular profile with a white interior lining and a recessed channel.

TINY SURFACE

A white, rectangular profile with a textured surface and a hollow end.

TINY RECESSED

A white, rectangular profile with a hollow end.

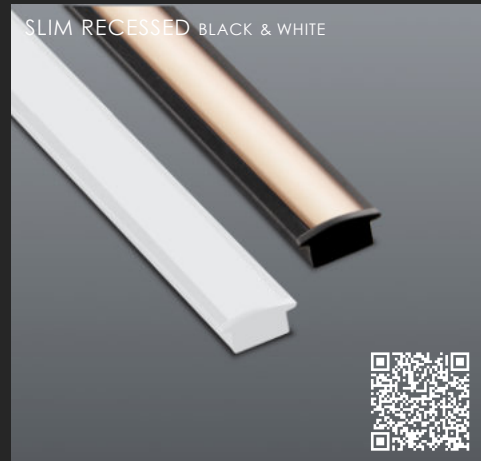

SLIM SURFACE BLACK & WHITE

Two profiles: one black and one white, both with a recessed channel containing yellow LED chips.

SLIM RECESSED BLACK & WHITE

Two profiles: one black and one white, both with a recessed channel containing yellow LED chips.

PETITE

A white, rectangular profile with a recessed channel containing yellow LED chips.

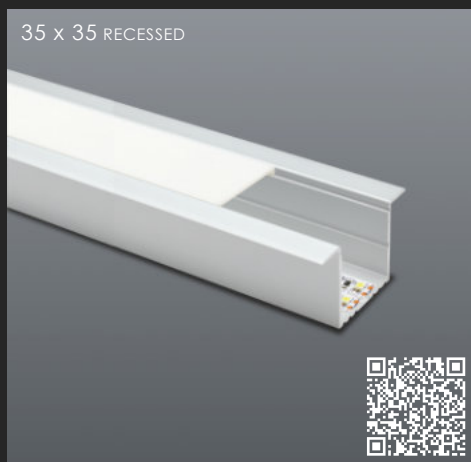

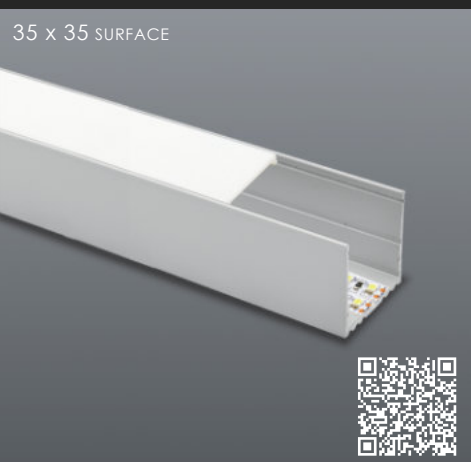

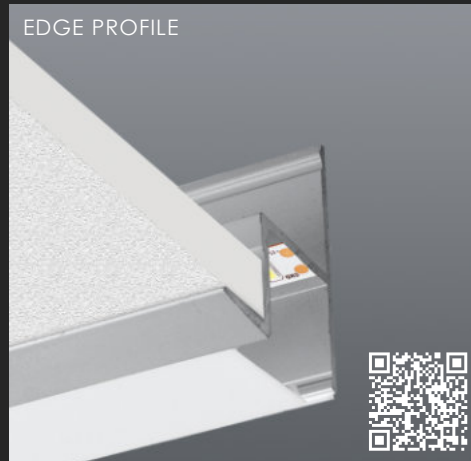

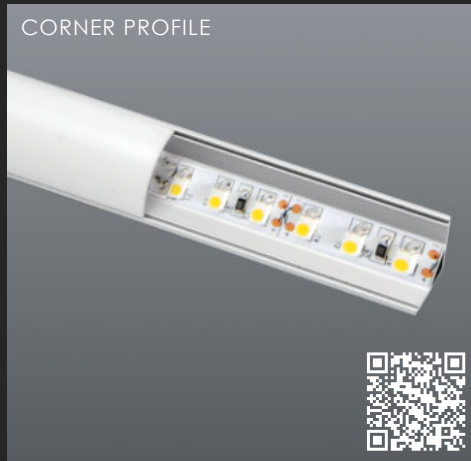

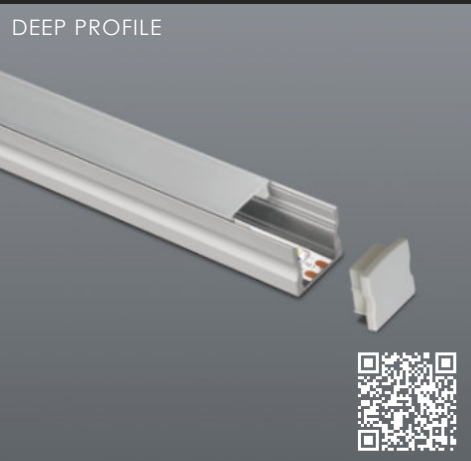

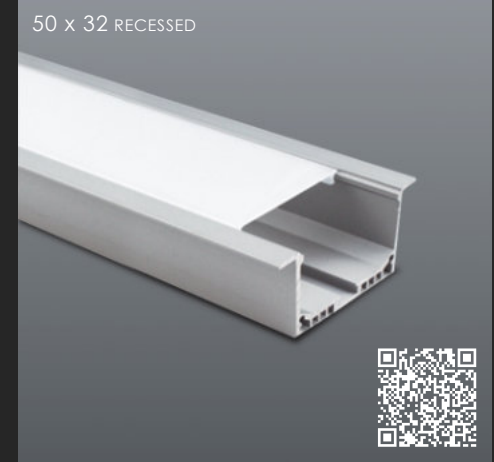

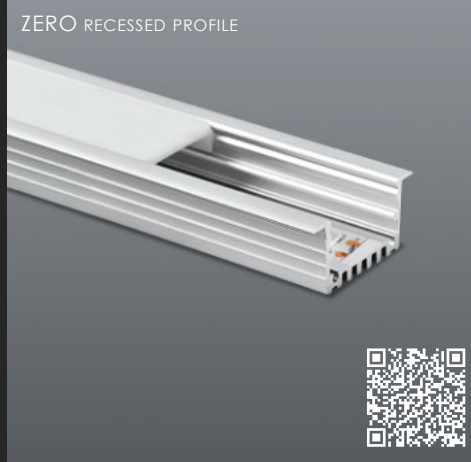

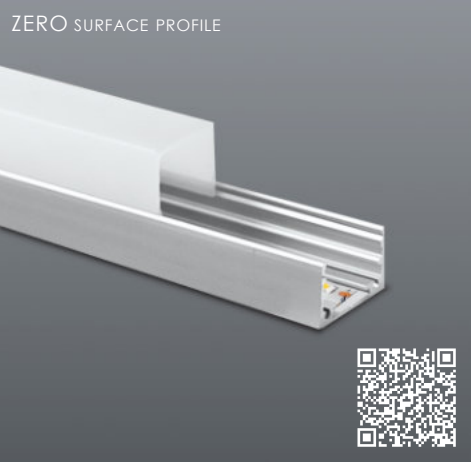

BASE 3 HEATSINK

A white, rectangular profile with a recessed channel containing yellow LED chips and a heat sink base.

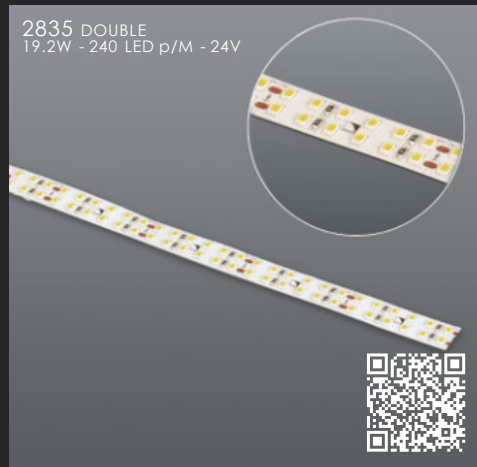

2835 COB OPEN  
8W - 320LED p/M - 24V

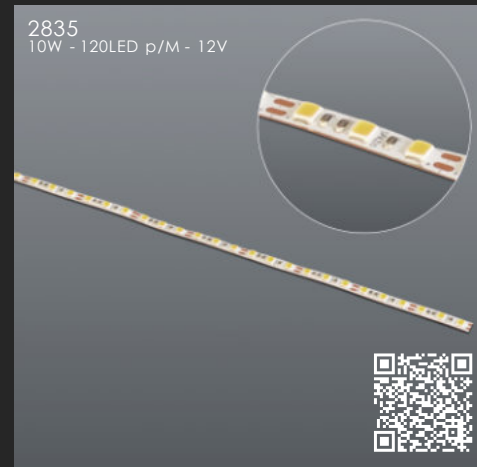

A long, thin LED strip light with a circular inset showing a close-up of the COB (Chip on Board) technology. A QR code is located in the bottom right corner.

2835 DOUBLE  
19.2W - 240 LED p/M - 24V

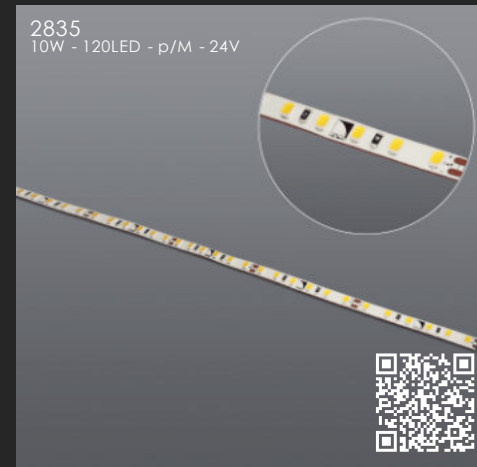

A long, thin LED strip light with a circular inset showing a close-up of the double-sided LED arrangement. A QR code is located in the bottom right corner.

2835  
10W - 120LED p/M - 12V

A long, thin LED strip light with a circular inset showing a close-up of the LED chips. A QR code is located in the bottom right corner.

2835  
10W - 120LED - p/M - 24V

A long, thin LED strip light with a circular inset showing a close-up of the LED chips. A QR code is located in the bottom right corner.

2835 20 meter  
6W - 60LED p/M - 12V

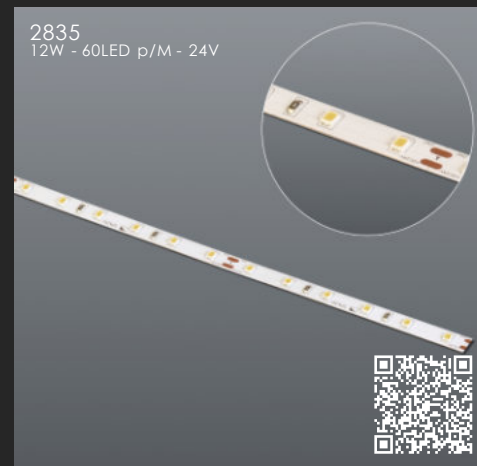

A long, thin LED strip light with a circular inset showing a close-up of the LED chips. A QR code is located in the bottom right corner.

2835 20 Meter  
6W - 60LED p/M - 24V

A long, thin LED strip light with a circular inset showing a close-up of the LED chips. A QR code is located in the bottom right corner.

2835  
12W - 60LED p/M - 24V

A long, thin LED strip light with a circular inset showing a close-up of the LED chips. A QR code is located in the bottom right corner.

2835  
12W - 120LED p/M - 24V

A long, thin LED strip light with a circular inset showing a close-up of the LED chips. A QR code is located in the bottom right corner.

2835  
6W - 60LED p/m - 12V

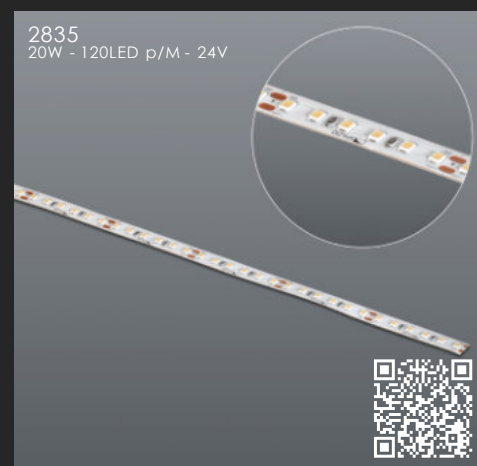

A long, thin LED strip light with a circular inset showing a close-up of the LED chips. A QR code is located in the bottom right corner.

2835  
6W - 60LED p/m - 24V

A long, thin LED strip light with a circular inset showing a close-up of the LED chips. A QR code is located in the bottom right corner.

2835  
20W - 120LED p/M - 24V

A long, thin LED strip light with a circular inset showing a close-up of the LED chips. A QR code is located in the bottom right corner.

2216  
7.2W - 120LED p/M - 24V

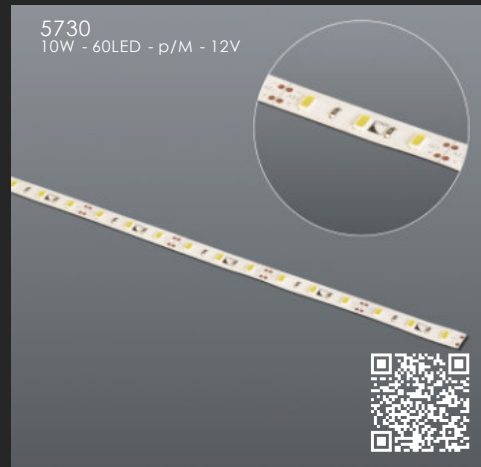

A long, thin LED strip light with a circular inset showing a close-up of the LED chips. A QR code is located in the bottom right corner.

5050  
14W - 60LED - p/M - 12V

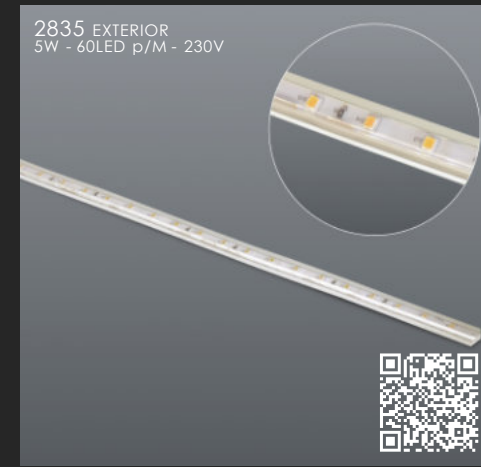

5050 LED strip light with 14W power, 60 LEDs per meter, 12V. The strip is shown with a circular inset showing a close-up of the LED chips and a QR code for more information.

5730  
10W - 60LED - p/M - 12V

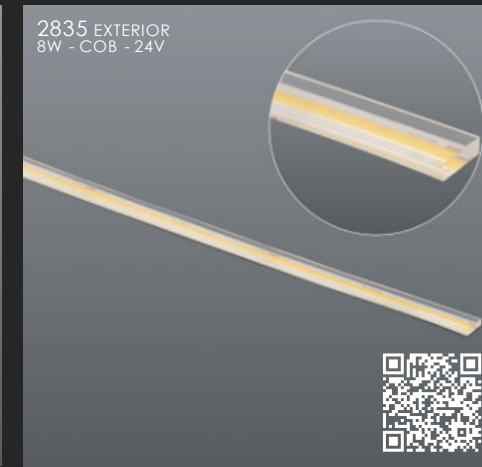

5730 LED strip light with 10W power, 60 LEDs per meter, 12V. The strip is shown with a circular inset showing a close-up of the LED chips and a QR code for more information.

2835 EXTERIOR  
5W - 60LED p/M - 230V

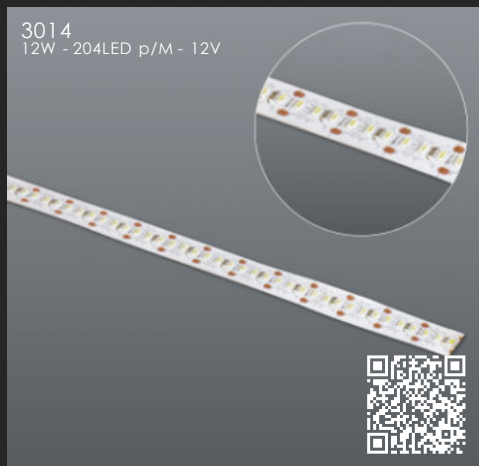

2835 EXTERIOR LED strip light with 5W power, 60 LEDs per meter, 230V. The strip is shown with a circular inset showing a close-up of the LED chips and a QR code for more information.

2835 EXTERIOR  
8W - COB - 24V

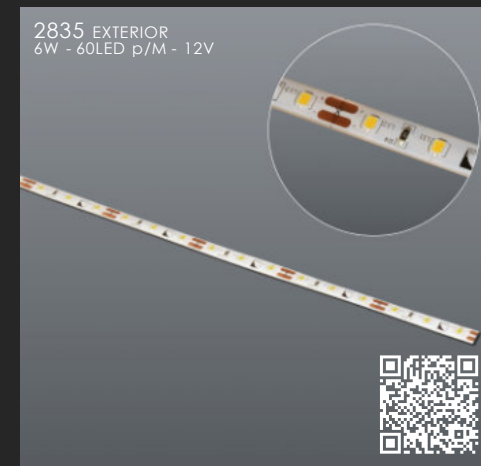

2835 EXTERIOR COB LED strip light with 8W power, COB technology, 24V. The strip is shown with a circular inset showing a close-up of the COB chip and a QR code for more information.

3014  
12W - 204LED p/M - 12V

3014 LED strip light with 12W power, 204 LEDs per meter, 12V. The strip is shown with a circular inset showing a close-up of the LED chips and a QR code for more information.

2835 EXTERIOR  
6W - 60LED p/M - 12V

2835 EXTERIOR LED strip light with 6W power, 60 LEDs per meter, 12V. The strip is shown with a circular inset showing a close-up of the LED chips and a QR code for more information.

2835 EXTERIOR  
5W - 60LED p/M - 230V

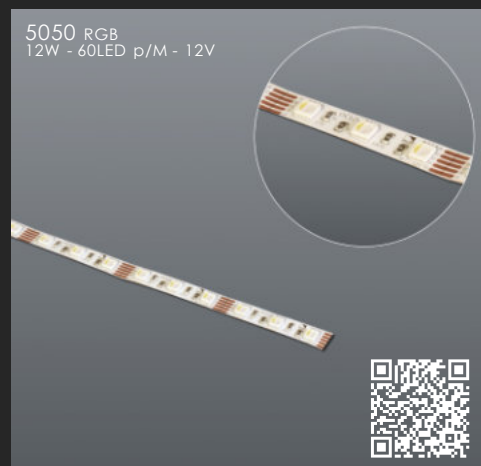

2835 EXTERIOR LED strip light with 5W power, 60 LEDs per meter, 230V. The strip is shown with a circular inset showing a close-up of the LED chips and a QR code for more information.

5025 CTC  
12W - 60LED p/M - 12V

5025 CTC LED strip light with 12W power, 60 LEDs per meter, 12V. The strip is shown with a circular inset showing a close-up of the LED chips and a QR code for more information.

5050 RGB  
12W - 60LED p/M - 12V

5050 RGB LED strip light with 12W power, 60 LEDs per meter, 12V. The strip is shown with a circular inset showing a close-up of the RGB LED chips and a QR code for more information.

5050 RGB EXTERIOR  
14W - 60LED p/M - 12V

5050 RGB EXTERIOR LED strip light with 14W power, 60 LEDs per meter, 12V. The strip is shown with a circular inset showing a close-up of the RGB LED chips and a QR code for more information.
